RELEVANT EXPERIENCE

NITSAN Technologies LLP, Bhavnagar, Gujarat

November 2023 - Present

Front-End Developer

- Developed responsive web applications using React JS, JavaScript/TypeScript, Custom SCSS, Bootstrap/Tailwind and Typo3 CMS.
- Managed **client relations** by understanding requirements, addressing concerns, and providing status updates to ensure project alignment with expectations..
- Prepared technical standards, performance optimization, and client hour estimation **reports**.
- Collaborated with design and backend teams, emphasizing **teamwork** to deliver visually appealing and functional websites.
- Ensured **website accessibility** by adhering to WCAG standards, using semantic HTML, ARIA roles, and keyboard navigation.
- Performed **web analysis** to monitor user behavior, track key performance metrics, and recommend improvements for better user experience.
- Maintained and updated existing websites by **troubleshooting** and **debugging** code, ensuring seamless operation across multiple browsers and devices.
- Implemented UI/UX best practices, including consistent **naming conventions**, minimal SASS usage, and user testing, to optimize website performance.
- Improved **SEO** by implementing meta tags, alt attributes, and other best practices to enhance search engine visibility.
- Developed **VS Code Extension: Typo3 Content Block Snippets**

Webtel Electrosoft Pvt. Ltd, New Delhi

June 2023 - Sept 2023

Technical Executive

- Provided proactive technical support to end users via phone, email, and remote desktop tools, resolving over approx. 120 tickets per week with a 99% customer satisfaction rate.
- Troubleshoot and address complex technical issues, resulting in a 20% decrease in overall service downtime.
- Implemented and maintained IT infrastructure upgrades, including software installations and network configurations.
- Award:** Rising Star of the month.

PROJECT EXPERIENCE

T3Planet, Typo3 Store ([View](#))

- Contributed to the development of key **multipurpose themes**, including [T3 React Bootstrap](#), [T3Karma](#), [T3Avatar](#) etc.

Block Menue ([View](#))

- Led the project team** in developing major components, including the header, main menu, footer, and forms.
- Award Recognition ([View](#))**
 - Recognized for exceptional performance, client relationship management, and dedication to project delivery.

T3 React Bootstrap ([View](#))

- Utilized technologies such as React.js, Vanilla JavaScript, Bootstrap, CSS, HTML, YAML, and Typo3 Fluid.
- Focused on improving website accessibility, following best practices, and optimizing SEO performance.

T3Karma ([View](#))

- Created innovative components using creative problem-solving.
- Led code reviews and mentored junior developers on best practices, Git version control, and agile methodologies.

Century Casino ([View](#))

- Developed fully responsive website using CSS, Flexbox, and Grid systems (**Mobile-First Approach**).
- Created and maintained technical standards and performance reports, leveraging tools such as GTmetrix, Google PageSpeed, and Pingdom.

Quivo ([View](#))

- Developed fully functional JavaScript elements with advanced event handling, such as on-scroll animations, element visibility detection and dynamic content loading.
- Managed time tracking and hour estimation reports.
